From the Organisers

It is indeed a great honour for us to be asked to host the 2011 meeting of the International Association of Pancreatology along with the Annual Conference of the Indian Pancreas Club. We welcome you all to the beautiful city of Cochin, the Queen of the Arabian Sea where we hope to bring science and art together in a wonderful ambience. The meeting will bring together basic scientists,

clinicians and other specialists who deal with pancreatic disease, with special

emphasis on problems faced in the region. Young investigator awards, and plenaries will highlight the cutting edge in the diagnosis and management of pancreatic diseases.

In addition to the scientific content, please do spend some time soaking in the natural beauty of Cochin and Kerala, its beaches, inland lagoons (backwaters), mountains and forests.

The conference also hopes to provide an opportunity for persons dealing with pancreatic disease to establish new ties and strengthen old ones.

Looking forward to welcoming you to God's own Country in February 2011.
